

BAND SAW BLADE MACHINE 126 DATA SHEET

Meat Gear

Standard features:

- Open frame stainless steel construction, ideal for high-demand areas.
- Hose Down Washable.
- Start-stop Switch, with emergency stop.
- Accessible and automatic tension control.
- 3" adjustment on all 4 leveling legs.
- Removable and interchangeable pulleys.
- Wide waste tray.
- Stationary two-piece table with ramp option.
- Magnetic switch with thermal overload protection.
- Motor: 3 HP Triphasic (standard), with option of 1.5 HP and 5 HP.
- Saw blade: 126" long.
- Cutting capacity: 13 ¾" width x 20" height x 20 ½" length.
- Machine Weight: 235 kg.
- Saw velocity: 16 mt/sec.

BENEFITS:

3 HP Motor

- Completely sealed.
- Thermomagnetic protection.
- Maintenance-free.
- Transmission system.
- Saw blade, ensured tension system.

Security Characteristics

- Upper and lower pulleys completely sealed.
- Adjustable protective guard that protects the exposed part of the saw blade.
- Interlock switches (if doors open, machine turns off automatically).
- Final cut pusher.

Easy to clean

- Its wide and sanitary waste tray extends unloading periods, allowing more productive time.

Automatic tension

- Easy to use, more productive.
- Easy adjustment to get the right tension of the saw blade, extending its lifespan.
- Automatic adjustment of the pulleys and guides.

Easy control

- Easy to use.
- Start-stop system.

Pulley Design

- 14" pulleys with double flange, stainless steel construction.
- Removable and interchangeable.
- Saw blade operation is ensured by its balance.
- Pulley track angles allow the correct positioning of the saw blade and extends its lifespan.

Moveable Plate (carriage)

- 17 ½" x 20 ½" length.
- Its 8 wheels provide rigidity and ensure stability.
- Thumb finger guard can be fixed at any point during its movement.

Steak Cutter

- 8" x 18" stainless steel construction.
- Cutting regulator with lever lock allows adjusting desired thickness.
- The design allows quick removal of cuts for stacking.

Stationary table

- Durable.
- 18 ½" x 35" stainless steel table.
- Its thickness provide sturdy use.
- Provides space for stacking.
